

Bodysack - an innovation from Jonsac!

Fast, good service and quality in the right time are watchwords that Jonsac AB lives up to since 50 years back. We are a company in Otterbäcken, on the East side of the lake Vänern. We extrude polyethelen packaging products to be used for wrapping and covering our customers' products. We also produce papersacks and paperbags. Our production is environmentally conformed and we are able to print 1-4 colours. We are ISO9001 certified.

Bodysack can be used within

- Disaster areas
- Hospitals
- Veterinary hospitals
- Wild animals e.g. traffic accidents.

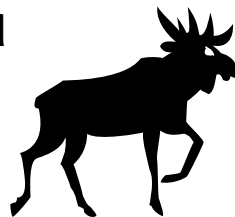

Bodysack is available in different sizes depending on the usage.

Produced of sturdy polyethelen.

Trade Mark and Design registered within EU (Des. 770524) and Norway (Des.P. 20070489)
